

PROPHYX V

PROPHYLAXIS PASTE

✓ is prophylaxis paste with variable shape particles suitable for cleaning and polishing in professional teeth cleaning. The combined effects are granted using decreasing particles' size during treatment, starting with hard graining particles (cleansing effect) reaching particles with soft graining (polishing effect), each with different surface geometries. Prophyx V removes plaque and colorations and prevents new build-up of tooth deposits. The initial RDA value is 220, reaching RDA value of 40 at the final stage.

Recommended use for professional only.

✓ Technical Characteristic

Color	Starting RDA (grain)	ENDING RDA (grain)
Blue	220	40

Packing

Tube of 100 gram

• Measurement at 23 +/- 2°C and 50 +/- 10% relative humidity.

✓ Main Characteristics

- Variable shape particles combine excellent cleansing and polishing effects in one paste.
- The paste does not splash nor dry out.
- Contains 0.2 % sodium fluoride to strengthen the dental enamel.
- Paraben-free, Gluten-free, lactose-free, vegan.
- Optimized thixotropy for an easy application.
