

NoMIX[®]

Temporary Cement

✓ is the only pre-mixed, single component, temporary cement available. It eliminates the mixing, spatulation and messy cleanup of traditional temporary cements. Yet NoMIX provides superior retention. Pre-loaded in syringes enables fast, exact placement onto restorations. And our new NoMIX take-home applicators are perfect for patient use – at home or on-the-go; they help eliminate those late night emergency calls.

✓ FEATURES

- NoMIX, no mess, no waste
- Easy to use, in the office or at home
- Non-eugenol, so it's compatible with all resin materials or bonding agents
- ZnO, so it's anti-bacterial & anti-fungal
- Calcium sulphate, so no leakage
- Potassium sulphate, so decrease sensitivity

✓ **Working time 5 minutes. Final set time 15 minutes.**

✓ BENEFITS

- Moisture-activated formula — no need to dry the tooth; reduces post-operative sensitivity
- Unit-dose, take-home applicators — take-home security; helps eliminate those late-night emergency calls
